Officer Jones has issued an order which prohibits riding wheels on the sidewalks in any part of the city. On account of the frequent complaints made and the danger to pedestrians this order must be enforced. The officer asks the co-operation of all in reporting any violation of same.

Broken eye glass lenses can be replaced the same day as order is given in our lens grinding department.
HARRY DIXON & SON,
Graduate Optometrists.

The municipal electric lighting system at Sutherland was put into commission last week and several business houses are now using the lights. Owing to delays in shipments of equipment it has been impossible to get the street lights in working order and the wiring of dwellings was delayed. The lights now in use are proving very satisfactory.

The parting gift—
A Vest Pocket Kodak.
It is monotony, not bullets that our soldier boys dread. At the front, they will uphold bravely the traditions that are dear to every loyal American heart. But in the training camps and during the months of forced inaction, there are going to be some tedious, home-sick days—days the Kodak can make more cheerful.
There's room for a little Vest Pocket Kodak in every soldier's and sailor's kit. The expense is small, six dollars.
THE REXALL DRUG STORE.
Agents for Eastman Kodaks and Supplies.

ICE CREAM AND CAKE SERVED AT CAMP CODY

Members of Company E will probably be interested in knowing that ice cream and cake is on the daily bill of fare at Camp Cody, to which camp the ideal company will soon be sent. This information is conveyed in a special from Camp Cody appearing in today's Bee. At present 4,000 men are employed on constructing the ball fields at the new camp. These ball fields are about one-third completed, and it is figured that the work will be finished within two weeks. All told there will be eleven hundred buildings on the grounds.

This camp at Ft. Deming has been named in honor of our former townsmen, W. F. Cuddy, and as Company 5, comes from the late Colonel's old home, and many members were personally acquainted with him, the name of the camp will be an attachment to them.

:o:~:o:

May Leave This Week.

Captain Halligan, of Company E, stated yesterday that he thought it probable that his company will entrain the latter part of this week. He is of the opinion that the eighty cars used to transport the Fourth regiment to Ft. Deming will at once be returned to Nebraska and used for the transportation of the Fifth. These cars will probably be started northward today and should reach Nebraska Thursday, and that the entrapment of the Fifth would at once follow.

:o:~:o:

Fourth Regiment Leaves.

The Fourth Nebraska Regiment entrained for Ft. Deming Saturday, and the fact that this regiment has left is taken as an indication that the Fifth will soon follow. Considerable equipment for Company E was received Saturday and distributed among the members, but there is yet considerable to come. The longer the Company E men remain in town the more restive they become—they long for the real soldier work that they will find at the concentration camp for there their activities will be much greater than here.

:o:~:o:

Will Consider Food Question.

President Wilcox has called a meeting of the Chamber of Commerce for tomorrow evening at which will be considered several phases of the food conservation and production as suggested by congress. The importance of the question seems not to be fully comprehended by the average man, and the Chamber of Commerce will act in conjunction with the county food agent who will be appointed for this county. The appointment of such an agent will shortly be made.

:o:~:o:

East Sizzles with War Doings.

Wm. Harcourt, of the Harcourt Clothing Co., who returned Friday from a three weeks' visit in the east, says the eastern states fairly sizzle with the war spirit, and the war is not only the burden of the talk but the spirit pervades business circles. Everywhere men in soldier uniforms are noticed. Many schemes are used to secure men to enlist, and there is a general hip, hip and hooray.

A brass band of Canadians who had seen service in the trenches, many of them wounded and all dressed in Kilts, parade the streets in Chicago, and are followed by hundreds. A tank car rolls along the streets and when the following crowd is big enough a man emerges from the car and makes a talk advising the young men to enlist. In the manufacturing centers the wheels are humming turning out government supplies, and are so busy on these contracts that they cannot supply the every-day demand. In Milwaukee, a strongly pro-German city, Mr. Harcourt saw a hundred or more men enlist in the British army and were ready to be sent to Canada and transported to England. They enlisted because they were each enlisted married man about forty dollars a month in addition to the pay he receives.

A Sermon On Lumber

In conclusion my friends, we can't get away from this lumber question. Why, every one of us spent our first days in a cradle made of lumber.

Our lives have been lived between walls of two by fours and lath, with rafters over our heads, and matched flooring beneath our feet. We have been sitting in wooden chairs, eating from wooden tables, riding in wooden wagons, and in the course of time will be laid to rest in wooden caskets.

Lumber is King in the Construction World.
